ASSTRA – Who we are

ASSTRA – Transport Association - Is the **National Association, of local public transport companies** in Italy, both local government-owned and private. It was established in 2001 through the **fusion of the two sector associations** which existed for more than 60 years: **Federtrasporti** (federation of municipally owned companies) and **Fenit** (federation of concessionary railways).

Vision

To **consolidate the public transport and mobility system**, as a central economic sector for local and national growth, in view of its capability to generate welfare, increase social inclusion, and foster cultural growth with minimal environmental impact.

Mission

To **encourage and support the industrial development of Italian public transport** from the managerial, organizational, regulatory, and technological standpoint by strengthening its central role in the pursuit of environmental, social, and economic sustainability goals.

ASSTRA – Who we are

N. of Company	931
N. of employees	124.000
Passengers carried	ca 5,5 billion
N. of vehicles	over 49.000
Kilometers produced	over 1.8 billion veh-km over 228.6 billion train-km

ASSTRA – What we do

PROMOTES local public transport as road towards **sustainability**, by fostering awareness on environmental, social and economic values.

UNSURES the needs and interests of its members

BRINGS together relevant sector stakeholders to exchange ideas, best practices and find solutions, acting both as a platform for knowledge exchange and networking

OFFERS technical advices on social, legal, administrative, financial, and technological innovations fields

COLLECTS data to ensure accurate analysis of the sector

ASSTRA – What we do

ASSTRA has a **Press and Communication Office** and publishes “**Trasporti Pubblici**” a specific Monthly Journal reporting main news and event in Public Transport.

CONFERENCES:

- XVII National Conference on Mobility and Transport of the Council of Europe
- International Conference on DEMAND in Transportation

SEMINARS:

- 5th Seminar on Road Transport
- 1st National Conference on Management
- "5th NATIONAL Conference on Maas And C
-

COURSES:

- Economic evaluation of investment projects for energy transition
- Electric Bus System (UITP)
- MAAS – Mobility as a Service (UITP)
- ...

ASSTRA, through its operating company Asstra Service S.r.l., organizes several **conferences, seminars and training courses** on public transportation and sustainability.

ASSTRA – Activities

ASSTRA among its activities:

- takes part in **international projects**
- takes part in **UITP working group** →
- manages **Italian Working groups**
- Develops sector **research and surveys**

- EU LOW EMISSION
- DIGITALIZATION AND TICKETING
-

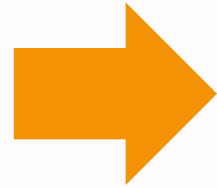

TPL Companies and Urban Mobility

- **to take a snapshot** of the state of the art of the **assignment of Mobility Managers** within the companies involved in the survey,
- **provide a picture** about the planning and scheduling of the Mobility Manager in companies
- **conduct an early screening of measures** developed by companies to improve the mobility of their employees and the main barriers
- **define a standard employee questionnaire**, specific to LPT companies, which can be adapted according to the needs of each company.

ASSTRA – Committee and Working Group

COMMITTEE

- Economic
- Legal
- Technological
- Trade-union employees

WORKING GROUPS

- Procurements
- Bus
- ITS
- Sustainable Mobility
- Energy efficiency
- GDPR
- Marketing
- Consumers
- Administrative Responsibility and Offenses on safety at work
- Anticorruption

ASSTRA – European Projects

ASSTRA has taken part in many European projects, often with the role of Leader of some Work package

ASSTRA – SNEAK Project

Optimized surfaces against noise and vibration produced by tramway track and road traffic

BUDGET INFO

Total amount:

1.988,982 Euro

% EC Co-funding:

55.00%

DURATION

Start: 01/09/2021 End: 31/08/2024

PROJECT'S BENEFICIARIES

Coordinating Beneficiary: **Comune di Firenze**

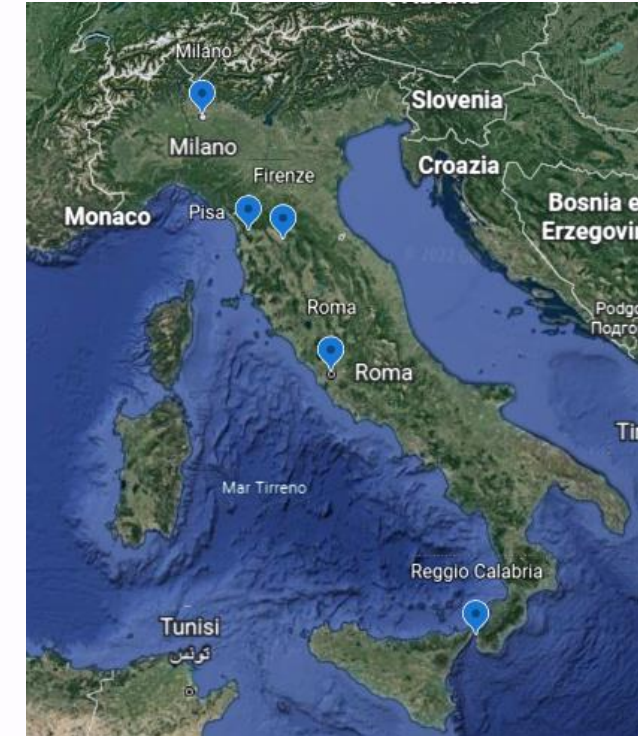

Associated Beneficiaries:

ASSTRA – Associazione trasporti, Ecopneus s.c.p.a.,

MOPI s.r.l., Università di Firenze, Università Mediterranea di Reggio Calabria, **Vie**

en.ro.se Ingegneria s.r.l.

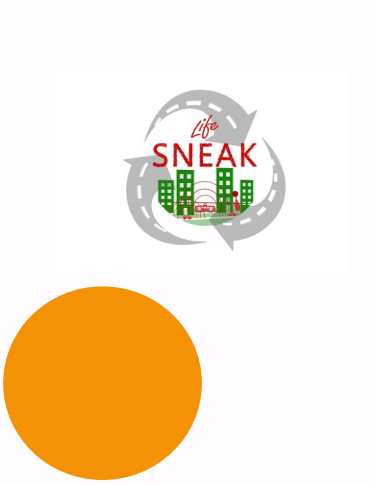

PROJECT LOCATION:

ASSTRA – SNEAK Project

THE IDEA

Need to **design and test solutions** that enable the **reduction of noise and vibration** caused by the coexistence, in urbanised area, of road traffic and tramways crossings

ASSTRA – SNEAK Project

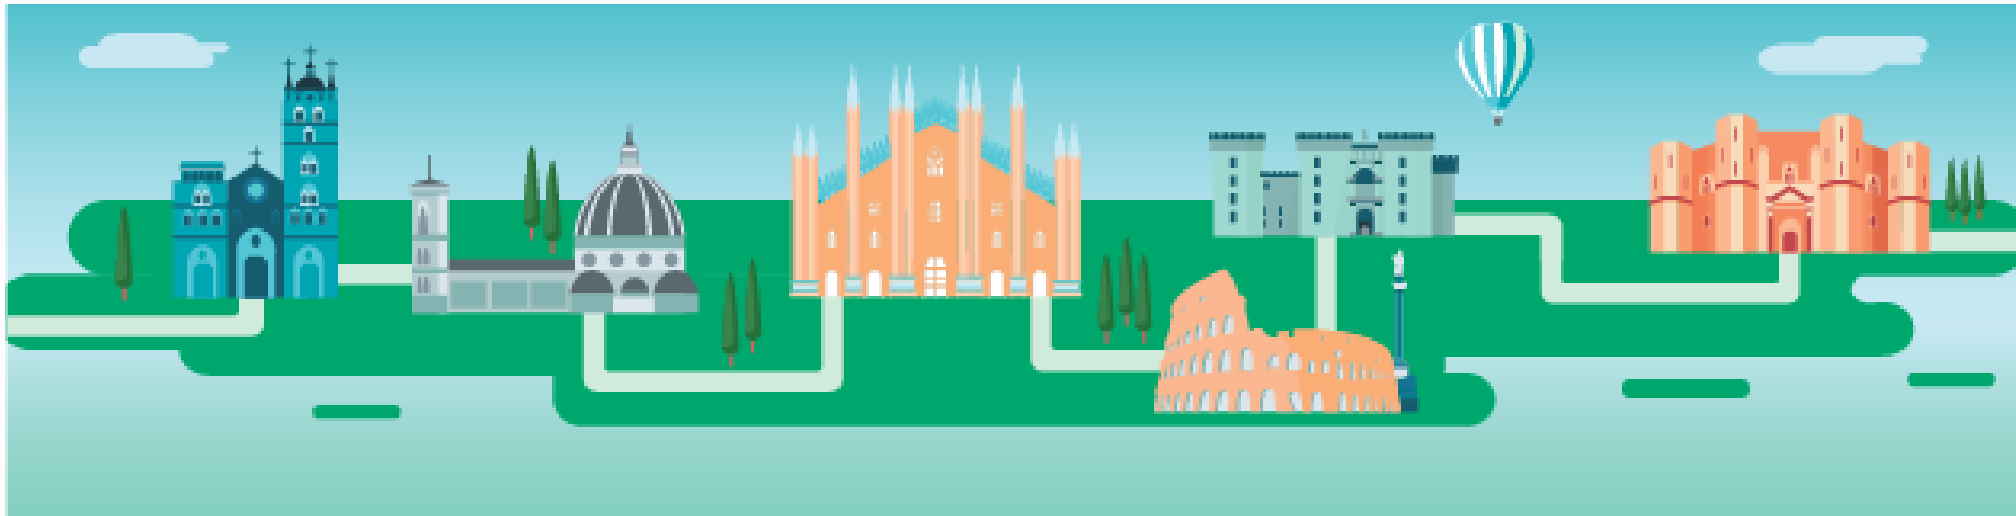

PROJECT OBJECTIVES

- Design and apply new low-noise pavements to mitigate the noise produced by wheel-rail and pavement-pneumatic interaction
- Design/apply sound-absorbing panels made of recycled material (bogie skirts) to be applied on the streetcar to reduce noise due to wheel-rail contact
- Designing pavement with a competitive LCC
- **Promote the proposed solutions for reducing noise pollution at National and International level**

ASSTRA – SNEAK Project

REPLICABILITY ACTION

Identify activities aimed at the replicability and transferability of project outputs resulting from the testing of systems for the reduction of tramway noise through anti-noise and anti-vibration road surfaces.

ASSTRA – SNEAK Project

REPLICABILITY ACTION REALISED

- ASSTRA sent a communication describing the purpose and objectives of the LIFE SNEAK project to its 153 member local public transport companies with a request for expressions of interest, obtaining some feedback.
- the request for expressions of interest for the project was sent not only to companies that have Tramway networks in operation, but to all member companies, as even companies without tramway might be interested in the results.

MANIFESTAZIONE DI INTERESSE PER
EVENTUALE TRASFERIBILITA' E
REPLICABILITA' DEI RISULTATI

Vi invitiamo, cortesemente, a compilare la scheda ed a inviarla ad ASSTRA (e-mail meko@asstra.it) entro e non oltre il **29 aprile 2022**.
